

Notice about the Launch and Purchase Recommendation of new "PQDT Degree Dissertation" Platform

PQDT full-text database of degree dissertation is the most complete and high-quality domestic database providing excellent master's thesis of foreign universities (mainly in North America). By March 29, 2019, the foreign master's thesis reach a total number of 762,881, and 60,774 dissertation were updated in 2018. This excellent database covers the dissertation that have passed master's or PhD's assessment every year in most North American universities and thousands of higher education institutions in other parts of the world. The master's and PhD's dissertation of many world-renowned universities are also included in this database, including Harvard University, Massachusetts Institute of Technology, Cambridge University, Stanford University, Hong Kong University of Science and Technology.

PQDT launches the new platform with added function of “purchase recommendation”. Our University plans to order 200 ProQuest foreign degree dissertations, and thus welcomes the recommendation of researchers across the university. The deadline for recommendation is October 30, 2019. The specific purchase recommendation process is as follows:

1. open the website

Readers can find the "[ProQuest degree dissertation PQDT](#)" in the "Common Database" or "English Database" list on our library website, click to access, or directly enter www.pqdtcn.com.

2. Click the “User Center” icon in the upper right corner to register and log in to your personal account.

3. Search and browse, enter the term to be searched in the search bar, and the search result will appear on the webpage.

4. selection of dissertation, Three kinds of icons indicate three types of dissertations: icon 1 is dissertation pending for purchase; icon 2 is the archived dissertation which are not available for purchase yet; icon 3 is all the full-text dissertation our university has had, and there is no need to order. Readers are expected to select from "pending" dissertations and click on “荐购”.

After the recommendation, readers can track the real time status of purchase through "my recommendation" in their personal account. The review status as "passed" indicates that the library agrees to purchase the dissertation recommended by the reader. If the purchase is successful with full-text, the system will automatically send an email to the email address as provided by the reader's registered account.

Note: The information such as email address must be filled in accurately so as not to affect reader's personalized service.
